

**Focus Skills/Subject:**  
Geography, Research,  
Observation, Recording,  
Communication, Speaking

**Grades:** 1-7

A great way to learn the geography of the US! Go to the site *Skype in the Classroom*, to find another classroom from the US wanting to Skype. Set up a day/time that works for both classes (remember to factor in the time zones). Prepare various yes/no questions ahead of time that will help students guess the location of the other classroom. A great first question could be, "Are you located east/west of Mississippi?". Assign students different jobs to perform during the session, such as question asker, or answerer, think tank, google mappers, state eliminators.

**Materials:**

- Webcam
- Skype Account
- Maps
