

This Classroom Has Pledged to Play

We believe in the fundamental importance of play, and understand that for all ages, play IS learning. We know that learning works best through hands-on exploration, messy art and science projects, and experimentation. We've seen firsthand how play helps to foster empathy, motor skills, reading, creativity, leadership, and cognitive skills. And we're committed to including play-based learning in our classroom. That's why we, the undersigned,

#PledgeToPlay.
