1 "Economic Impact" is the value of production by industry in a given geographic area.

2 Estimated Full Time Equivalent (FTE) jobs. In addition to direct employees of toy manufacturers, wholesalers and distributors, this figure also includes all retailers that sell toys as some component of its total product assortment. Toy-related retailer employment is calculated by multiplying total employees by the retailer's share of toy sales.

3 Wage data includes all income paid to workers by employers (e.g., cash wages along with health and life insurance payments, retirement payments and other non-cash compensation).
